SUBJECT INDEX

VOLUME 52

Acetate
  synthesis from H_2 plus CO_2 by termite gut microorganisms, 623
Acetone
  production from whey
    effect of nutrients, 169
Acetylene
  differential sensitivity of nitrification and denitrification
    use in determining nitrogen source in soil, 1280
  metabolism in soil
    effects on nitrous oxide production, 802
Acinetobacter calcoaceticus
  resistance to cetyltrimethylammonium bromide
    enhanced emulsan production, 146
Acinetobacter spp.
  soybean root nodule rhizosphere
    enrichment in hydrogen-evolving nodules, 1008
Acremonium coenophialum
  endophyte of toxic tall fescue grass
    in vitro growth, 888
Acridine orange counting
  marine bacteria preserved with acidified Lugol iodine, 602
Actinomycetes
  isolation from bulking industrial sludge, 1324
Adenine nucleotides
  turnover rate in microbial populations
    measurement method, 866
Aerobic soil
  chloroform oxidation, 203
Aerotolerance
  quantitative measurement method
    application to oral indigenous anaerobes, 971
Aflatoxins
  contamination of corn
    correlation with Zn^{2+} content, 73
  peanut contamination by *Aspergillus* spp.
    color mutant and wild-type strains, 1128
  soybean contamination
    role of seed coat integrity, 68
Aggregates
  behavior in continuous-flow reactor, 1139
Agmatine
  utilization by avirulent *C. fascians* strains, 33
Agrobacterium tumefaciens
  agrocin production
    activity against grapevine isolates, 217
  susceptibility to agrocin-producing strains, 234
  tumor induction
    minimum time required, 597
Agrocins
  A. tumefaciens control, 234
  production by *A. tumefaciens* J73
    activity against grapevine isolates, 217
Alcaligenes spp.
  1,4-dichlorobenzene degradation, 1374
  isolation and metabolic properties, 1374
Aldose reductase
  affinity purification in *P. tannophilus*, 660
Alfalfa
  adsorption of *R. meliloti*
    host-symbiont specificity, 377
    selective binding sites, 377
Alfalfa root nodules
  hydrogen source
    effect on bacterial distribution in soil, 1091
Algae
  algal-bacterial consortia
    stimulation of bacterial DNA synthesis, 1177
  fouling of low-density vinyl
    enhancement by bacteria, 1391
Alginate
  production by plant-pathogenic pseudomonads
    occurrence and characterization, 466
Alkaline phosphatase
  overproduction in *E. coli*
    localization of inclusion bodies, 1157
Alternaria spp.
  mutagenicity of altertoxins, 718
Altertoxins
  mutagenicity by *S. typhimurium* assay, 718
Aminonaphthalene sulfonates
  degradation by mixed cultures, 1195
Ammonia
  effect on fermentation of hardwood, 733
  oxidation by *N. europaea*
    inhibition by nitrapyrin in soil and liquids, 782
Ammonium
  extraction from natural waters
    new concentration procedure, 577
  ^{15}N isotopic ratio determinations, 577
Amphora coffeaeformis
  consortia with *V. proteolyticus*
    stimulation of bacterial DNA synthesis, 1177
Amylase
  production by *B. stearothermophilus*
    culture conditions, 179
α-Amylase
  production from protease-negative *A. ficum* mutant, 1068
Anaerobic bacteria
  polyethylene glycol metabolism, 852
Anaerobic bacterial aggregates
  behavior in continuous-flow reactor, 1139
Anaerobic oxidation
  effect of denitrifying bacterium on *p*-cresol, 1117
  toluene and benzene mineralization
    incorporation of oxygen from water, 200
Antibiotics
  effect of 2-chloroethylphosphonic acid, 605
  production by *P. fluorescens*
    glucose regulation, 1183
  resistance in *Z. mobilis*
    broad-host-range plasmid transfer, 366
Antisera
  evaluation for *B. japonicum* detection, 1132
Aquatic environments
  adenine nucleotide turnover rates
    measurement method, 866
  C. jejuni survival
    role of viable but nonculturable stage, 531
  dissolved DNA determination
    fluorescence technique, 654
  enterotoxin production by *V. cholerae*
    effect of microcosm salinity, 297
    effect of organic substrate concentration, 297
  [^{3}H]thymidine participation in DNA synthesis
    verification of isotope dilution approach, 1212
  predation on bacteria
    minicells as probes, 4
Aquifers
  biodegradation in groundwater
    dehalogenation of aromatic compounds, 681
Archaebacteria
  M. mazei
    life cycles, 17
Arginine
  S. clavuligerus fermentations
    clavulanic acid precursor, 892
Arthrobacter spp.
  isolation from *Azolla* fern, 425
Aspartate
  metabolism by *P. freudenreichii* subsp. *shermanii*
    effect on lactate fermentation, 359
Aspergillus ficum
  protease-negative mutant
    α-amylase production and characteristics, 1068
Aspergillus flavus
  color mutants
    preharvest peanut invasion, 1128
  isolation from cotton bolls
    relation to contamination of seeds, 963
Aspergillus niger
  coculture with *S. cerevisiae*
    potato starch fermentation to ethanol, 1055
Aspergillus parasiticus
  color mutants
    preharvest peanut invasion, 1128
Aspergillus spp.
  conidia
    partitioning in two-phase systems, 723
Attachment
  P. fluorescens strains
    glucose utilization measurement, 672
Aureobasidium pullulans
  high-specific-activity xylanase
    overproduction by color variants, 1026
Autecology
  R. trifolii indigenous serotypes, 1014
Azolla caroliniana
  isolation of eubacteria from leaves
    identification as *Arthrobacter* Conn and Dimmick, 425
Azolla filiculoides
  nitrogenase activity

effect of *Chlamydomonas* inoculation, 1123
Azospirillum spp.
association with Kallar grass root zones, 520

Bacillus anthracis
photoreactivation of UV-irradiated strains, 444
Bacillus circulans
isolation from date palm cultures, 1173
Bacillus megaterium
red pigment in spores, 64
Bacillus polymyxa
analog-resistant mutants
L-phenylalanine production from starch, 637
Bacillus sphaericus
larvicidal crystal proteins
sporulation-associated activation, 758
Bacillus spp.
cadmium- and mercury-resistant strains
isolation from a salt marsh and a harbor, 1293
emulsifying factor production
effect on organophosphorus pesticides, 1224
lysozyme sensitivity, 1224
marine isolate
manganese oxidation by spores and spore coats, 1096
Bacillus stearothermophilus
thermostable amylase production
culture conditions, 179
Bacillus thuringiensis subsp. *israelensis*
crystalline toxin proteins
immunological relationships, 644
microbial control agent
ingestion and adsorption by *G. lacustris*, 1386
vegetative cells
mosquito larvicidal potential, 650
Bacterial attachment
polystyrene
electrostatic interactions, 460
hydrophobic interactions, 460
surface tension, 460
Bacterial endotoxin
detection by beta-hydroxy fatty acid content
gas chromatography-mass spectrometry, 510
Bacteriocinlike activity
Thermus spp.
plasmid analysis, 1203
testing by deferred antagonism technique, 1203
Bacteriophages
L. bulgaricus and *L. lactis*
DNA homology group, 812
resistant lactic streptococci
construction by conjugal plasmid transfer, 1001
S. cremoris, *S. lactis*, and *L. cremoris*
from viili
ultrastructure and host specificity, 771
thermophilic *Thermomonospora* actinomycetes
characterization, 631
Bacteroides galacturonicus sp. nov.
isolation from human intestinal tract
taxonomic study, 880
Bacteroides pectinophilus sp. nov.
isolation from human intestinal tract
taxonomic study, 880
Bacteroides spp.
polyethylene glycol metabolism, 852
polygalacturonic acid
carbon and energy source, 9
Baculoviruses
T. ni nuclear polyhedrosis virus
hydrophobic interactions with leaves, 220
Barley
F. acuminatum isolation
T-2 toxin production, 594
Beans
semienclosed tube cultures
R. phaseoli enumeration, 954
Beauveria bassiana
sensitivity to plant growth regulators and spray additives, 1
Beggiatoa spp.
chemoautotrophic strain in H_2S-O_2 microgradient
growth pattern and yield, 225
microelectrode survey of marine and freshwater strains
H_2S and O_2 gradient development, 161
microoxic-anoxic niche, 161
Beta-hydroxy fatty acids
bacterial endotoxin detection
gas chromatography-mass spectrometry, 510
Beverages
quantitation of yeasts
fluorescence microscopy procedure, 599
Biodegradation
groundwater aquifers
dehalogenation of aromatic compounds, 681
water-insoluble organic compounds
effect of dissolution rate, 290
Bioluminescence
human pathogenic *V. vulnificus* strain, 1209
Biomass
degradation in marine sediment, 504
stratified lake with anoxic hypolimnion
depth distribution, 992
Blue crab
colonization of gut wall by *V. cholerae* chitin requirement, 586
Bovine rumen
M. lappus gen. nov., sp. nov.
ciliated protozoon, 527
Bradyrhizobium japonicum
analysis of symbiotic performance, 75
attached and unattached strains in soil
fractionation and estimation, 911
attachment to soybean roots
role of pili, 134
evaluation of antisera and conjugates for detection, 1132
mannitol-utilizing, nitrogen-fixing derivative, 75, 81
root exudate-enhanced competitiveness
rapid colored-nodule assay, 847
Bradyrhizobium spp.
slow-growing strains
growth on ethanol, 951
Bread
frozen-dough production method
selection of *S. cerevisiae* strains, 941
Bromoxynil
metabolism by *K. pneumoniae* subsp. *ozaenae*, 325
Bulking activated industrial sludge
isolation of novel actinomycete, 1324
Butanol
production by *C. acetobutylicum*
intracellular conditions, 86
production from whey
effect of nutrients, 169
Butylated hydroxyanisole
susceptibility of bacteria
effect of fatty acid composition, 214
influence of Gram reaction, 214
Butyrivibrio fibrisolvens
proteolytic activity characterization, 51

Cabbage juice
L. monocytogenes growth
effect of temperature, salt, and pH, 59
Cadmium
resistant *Bacillus* strains
isolation from a salt marsh and a harbor, 1293
Callinectes sapidus
colonization of gut wall by *V. cholerae* chitin requirement, 586
Campylobacter coli
substrate utilization and CO_2 formation, 700
Campylobacter jejuni
substrate utilization and CO_2 formation, 700
viable but nonculturable stage
effect on survival in aquatic environment, 531
Carbon
Bacteroides spp.
polygalacturonic acid as source, 9
planktonic bacteria, 28
Carbon dioxide
production by *C. jejuni* and *C. coli*, 700
reduction to acetate by termite gut microorganisms, 623
rock cod storage atmosphere
residual effect on microbial flora, 727
Casein
action of *S. cremoris* cell wall proteinases, 1162
Cellobiose
synthesis by *C. thermocellum* cellobiose phosphorylase, 902
Cellobiose phosphorylase
C. thermocellum
[^{14}C]cellobiose synthesis, 902
Cellulase
gene overproduction in *E. coli*, 737
Cellulose
anaerobic degradation
palladium-mediated hydrocarbon hydrogenation, 744
degradation by *C. mixtus*
cloning and expression of polysaccharase genes, 1362
degradation by *S. viridosporus*
effects of pH, 246
nitrogen-fixing cellulolytic bacterium
growth characteristics, 982
utilization by ruminal bacteria
effect of 2-phenylpropanoic acid, 209
Cellvibrio mixtus
cloning of polysaccharase genes

expression in *E. coli*, 1362
Cereals
Fusarium isolation
mycotoxin production, 1258
Cetyltrimethylammonium bromide
resistant *A. calcoaceticus* mutants
enhanced emulsan production, 146
Chemoautotrophic bacteria
Beggiatoa growth pattern and yield, 225
Chitin
degradation by salt marsh bacteria
end products as substrates for methanogenesis and sulfate reduction, 1415
V. vulnificus chitinase determinants
applications of chitinase probe, 142
chitobiase gene cloning, 142
Chlamydomonas spp.
effect on *A. filiculoides* nitrogenase activity, 1123
Chlorine
injury of *E. coli*
revival, growth, and pathogenicity of strains, 832
2-Chloroethylphosphonic acid
effect on antibiotic production, 605
Chloroform
oxidation in natural gas-amended aerobic soil, 203
Chlorpromazine
use in detection of microbial peroxidase activities
permeabilizer and reagent, 1433
Cholesterol oxidase
cloning and expression of *Streptomyces cho* gene, 1382
Chromobacterium violaceum
nitrogen metabolism
nitrogen fixation and denitrification, 696
Cinnamic acid
degradation by *P. putida* and *P. stutzeri*
comparative analysis, 930
Citrate utilization
location in plasmid R27
incidence in other plasmids, 1394
Citrinin
action on *E. coli* DNA, 1273
Citronella bagasse
biodelignification by white-rot fungi, 607
Clavibacter michiganense subsp. *nebraskense*
effect of lithium chloride on in vitro growth
dependence on inoculum source, 591
Clavulanic acid
S. clavuligerus fermentations
ornithine and arginine precursors, 892
Cloning
C. acetobutylicum glutamine synthetase gene, 413
C. mixtus polysaccharose genes
expression in *E. coli*, 1362
expression in *E. coli*, 45
S. lactis β-D-galactosidase gene
V. vulnificus chitobiase gene, 142
Clostridium absonum
modified plasmid isolation method, 197
Clostridium acetobutylicum
characterization, biosynthesis, and regulation of granulose, 185
glutamine synthetase
cloning, expression, and purification, 413
initiation of solvent production
intracellular conditions, 86
solvent-yielding fermentation
effect of nutrients on solvent ratios, 169
Clostridium cadavaris
steroid desmolase synthesis, 1153
Clostridium perfringens
modified plasmid isolation method, 197
nonsporulating cultures
enterotoxin synthesis, 407
type A enterotoxin enzyme immunoassay
evaluation of diagnostic application, 969
Clostridium thermocellum
cellobiose phosphorylase
[^{14}C]cellobiose synthesis, 902
degradation of woody biomass
effect of supercritical ammonia, 733
Coagglutination
serological identification of *V. vulnificus*, 1299
Coliforms
detection in potable water samples
Clark's presence-absence test, 439
membrane filter method, 439
public water supply
phenotypic characteristics compared with regional and national clinical species, 474
recovery by membrane filtration
effect of holding medium, 778
Coliphages
detection in drinking water
direct plaque assay, 430
Colonic bacteria
Bacteroides spp.
polygalacturonic acid as carbon and energy source, 9
Color variant strains
A. pullulans
high-specific-activity xylanase overproduction, 1026
Conidia
Penicillium and *Aspergillus* spp.
partitioning in two-phase systems, 723
Conjugation
streptococcal plasmid pAMβ1
transfer in *L. plantarum*, 574
Copper
injury of *E. coli*
revival, growth, and pathogenicity of strains, 832
Corn
contamination by aflatoxins
correlation with Zn^{2+} content, 73
Corynebacterium fascians
avirulent isolates
agmatine and proline utilization, 33
Cotton
A. flavus isolation from bolls
relation to contamination of seeds, 963
p-Cresol
anaerobic oxidation by denitrifying bacterium, 1117
Crown gall
A. tumefaciens
agrocin production, 217
susceptibility to agrocin-producing strains, 234
Cyanobacteria
Anabaena spp.
nitrogen-fixing association with *Azolla* spp., 1123
N. commune UTEX 584 cytoplasmic membrane
purification and biochemical analysis, 706
nitrogen limitation in natural populations
effect on macromolecular synthesis, 340
Cycloalkanes
metabolism by *Xanthobacter* spp.
comparative study, 665
Cysteine
effect on *M. barkeri* growth, 617
Cytochrome P-450
veratrole demethylation in *S. setonii*, 98
Cytophaga johnsonae
spoilage of fresh produce
isolation and properties, 1261

Date palms
callus and healthy offshoot cultures
pathogenic *B. circulans* isolation, 1173
Deepoxy-diacetoxyscirpenol
production in *F. graminearum* culture, 311
Dehalogenation
biodegradation in groundwater aquifers, 681
reductive dechlorination of pentachlorophenol
anaerobic microorganisms, 861
Dehydration
bacterial spores
correlation with heat resistance, 1242
Dehydrodivanillin
degradation by ruminal bacteria, 612
Delignification
G. applanatum degradation of wood
palo podrido as model, 1305
lemon grass and citronella bagasse
degradation by white-rot fungi, 607
P. tremellosus degradation of aspen and birch
ultrastructural aspects, 239
Denitrification
anaerobic oxidation of *p*-cresol, 1117
C. violaceum, 696
Florida Everglades marl and peat sediments, 987
nitrogen losses from forested ecosystems
environmental parameters, 1287
nitrous oxide production in soil
effects of acetylene reduction, 802
source of nitrogen production in soil
distinction from nitrification, 1280
Desulfovibrio desulfuricans
polyethylene glycol metabolism, 852
Desulfovibrio vulgaris
syntrophy with *M. bryantii*
methane production from formate, 1436
Diazotrophs
association with Kallar grass root zones, 520
1,3-Dichlorobenzene
microbial degradation

organism characteristics and metabolism pathway, 677
1,4-Dichlorobenzene
degradation by *Alcaligenes* sp. strain A175, 1374
Dicotyledenous plants
tumor induction by *A. tumefaciens* minimum time required, 597
Differential scanning calorimetry
structural analysis of fungally degraded wood, 1101
1,3-Dimethylbenzene
mineralization in absence of oxygen, 944
Dimethylselenide
metabolism in anoxic sediments
methane and carbon dioxide production, 1031
Dissolved DNA
determination in aquatic environments
fluorescence technique, 654
Drinking water
coliform detection
Clark's presence-absence test, 439
membrane filter method, 439
coliphage detection
direct plaque assay, 430
granular activated carbon particles
associated bacteria, 434

Electrodialysis fermentation
lactic acid production, 314
Emulsan
enhanced production by *A. calcoaceticus* mutants, 146
Emulsification
immiscible organophosphorus pesticides
Bacillus emulsifying factor, 1224
Endophytes
A. coenophialum in vitro growth, 888
Endotoxins
detection by beta-hydroxy fatty acid content
gas chromatography-mass spectrometry, 510
Enrichment broths
V. parahaemolyticus enumeration from seafood
evaluation of methods, 583
Enteric viruses
inactivation in fresh water
measurement of inactivation rates, 450
Enterococcus faecium
dehydrodivanillin-degrading strain
protoplast formation and regeneration, 612
Enteropathogenicity
clinical and environmental *V. cholerae*
comparative study, 875
Enterotoxins
C. perfringens type A toxin immunoassay
evaluation of diagnostic application, 969
production by *V. cholerae*
effect of microcosm salinity, 297
effect of organic substrate concentration, 297
staphylococcal enterotoxin A
nature and reactivity, 1247
specificity and cross-reactivity, 1253
synthesis by *C. perfringens*
effect of sporulation, 407
Enzyme conjugates
evaluation for *B. japonicum* detection, 1132
Enzyme immunoassay
C. perfringens type A toxin
evaluation of diagnostic application, 969
Enzymes
α-galactosidase from *M. pilosus*
production, purification, and characterization, 1147
Erwinia pectic enzymes
correlation with taxonomic classification, 305
glutamine synthetase
regulation in *C. acetobutylicum*, 413
inulinase and β-fructosidase
activity in soil bacteria, 1086
S. cremoris cell wall proteinases
action on bovine casein, 1162
xanthan depolymerase
isolation from salt-tolerant bacterium, 37
purification and properties, 37
Epilithic microorganisms
pentachlorophenol degradation, 92
Erwinia spp.
pectic enzyme production
correlation with taxonomic classification, 305
Escherichia coli
copper- and chlorine-induced injury
revival, growth, and pathogenicity, 832
effect of citrinin on chromosomal and plasmid DNA, 1273
high G+C cellulase gene overproduction, 737
β-lactamase or alkaline phosphatase overproduction
localization of inclusion bodies, 1157
patulin activity
single- and double-strand DNA breaks, 1046
S. lactis β-D-galactosidase gene
cloning and expression, 45
protein characterization, 45
Estuaries
hepatitis A virus detection
cDNA hybridization method, 711
rotavirus recovery
concentration method, 484
sediment enrichment cultures
microbial iron reduction, 1167
Ethanol
growth of fast- and slow-growing rhizobia, 951
production by fodder beet fermentation
effect of *S. cerevisiae* inoculum size, 960
production during yeast fermentation
effect of magnesium limitation, 975
production from potato starch
A. niger and *S. cerevisiae* cocultures, 1055
production from xylan by *P. stipitis*, 320
Ethylene
production by fungi and bacteria
effect of 2-chloroethylphosphonic acid, 605

Eubacteria
isolation from *Azolla* fern
identification as *Arthrobacter* Conn and Dimmick, 425
Eubacterium desmolans
steroid desmolase synthesis, 1153
Eutrophic lakes
protozooplankton grazing and bacterial production
estimation with metabolic inhibitors, 101
Exopolysaccharides
alginate production by plant-pathogenic pseudomonads, 466
Pseudomonas sp. strain EPS-5028
production and rheological properties, 1221

Fatty acids
composition in *Planococcus* spp.
effect of salt concentrations, 580
composition of bacteria
effect on susceptibility to butylated hydroxyanisole, 214
determination in marine bacteria and sewage sludge
gas chromatographic technique, 905
V. cholerae
effect of nutrient deprivation, 794
Fecal pollution
effect of organotins on indicator organisms, 562
Fermentation
aspartate metabolism by *P. freudenreichii* subsp. *shermanii*, 359
C. acetobutylicum fermentation of whey
effect of nutrients on solvent production, 169
clavulanic acid production from *S. clavuligerus*
ornithine and arginine precursors, 892
ethanol production by *Saccharomyces* spp.
effect of magnesium limitation, 975
ethanol production from fodder beet
effect of *S. cerevisiae* inoculum size, 960
ethanol production from potato starch
A. niger and *S. cerevisiae* cocultures, 1055
forage digestibility
effect of phenolic compounds, 275
lactate utilization by *P. freudenreichii* subsp. *shermanii*
regulation by intracellular pyruvate, 352
lactic acid production
effect of electrodialysis fermentation, 314
nylon manufacturing waste as substrate, 152
Pseudomonas exopolysaccharide production, 1221
streptococcal fermentation of milk
construction of phage-resistant strains by conjugation, 1001
wood degradation by *C. thermocellum*
effect of supercritical ammonia, 733
xylose fermentation by *P. tannophilus*
affinity purification of enzymes, 660
Fermented milk
bacteriophage isolation
ultrastructure and host specificity, 771

Ferric iron
microbial reduction in river sediments
distribution and availability, 751
reduction by *Pseudomonas* strain 200
effect of oxygen concentration, 281
inhibitor studies, 281
Fertilization
sewage sludge on salt marsh
effect on bacterial community, 915
Fescue grass
A. coenophialum in vitro growth, 888
Fiber
digestion by ruminal microorganisms
effect of pH selection, 390
Filters
Salmonella detection in food
improved immunological method, 124
Filtration
automation of microbial enumeration
disposable hydrophobic
grid-membrane filter unit, 857
delayed-incubation test for coliforms
effect of holding medium, 778
recovery of staphylococci from swimming pools
assay for in situ identification, 589
tangential-flow multiple-filter technique
detection of *G. lamblia* cysts in water, 400
virus inactivation during sludge treatment
method of determination, 498
virus recovery from water
effect of humic acid, 556
Fimbriae
role in *B. japonicum* attachment to soybean roots, 134
Fish
infectious hematopoietic necrosis virus
infection by different virus types, 1353
Fixation
effect on heterotrophic nanoflagellates, 1266
Flavobacterium spp.
pentachlorophenol degradation
comparison with epilithic microbial consortium, 92
Flavobacterium multivorum
isolation from soil
inulinase activity, 1086
Flow cytometry
effect on photosynthetic carbon uptake by phytoplankton, 935
L. monocytogenes detection in milk, 689
Fodder beet
solid-phase fermentation for ethanol production
effect of *S. cerevisiae* inoculum size, 960
Food
Salmonella detection
immunological membrane filter method, 124
V. cholerae survival, 824
Food poisoning
L. monocytogenes growth in cabbage juice
effect of temperature, salt, and pH, 59
V. cholerae survival in hot foods, 824
Forage
phenolic compounds
effect on forage digestibility, 275
toxicity for ruminal microorganisms, 275
Forests
acid soil
nitrification, 1107
nitrogen losses by nitrification and denitrification
effect of environmental parameters, 1287
Formate
metabolism by *M. thermolithotrophicus*
growth and methanogenesis, 1080
methane production
M. bryantii-D. vulgaris syntrophy, 1436
Fresh produce
spoilage by *C. johnsonae*
isolation and properties of bacteria, 1261
Fresh water
bacterial survival
effect of inhibitors, 114
enteric virus inactivation
measurement of inactivation rates, 450
Fumaric acid
accumulation by *R. arrhizus*
biochemical mechanism, 128
Fungi
acid-tolerant fungus
nitrification, 1107
A. coenophialum
in vitro growth, 888
B. bassiana
sensitivity to plant growth regulators and spray additives, 1
degradation of wood
analysis by differential scanning calorimetry, 1101
P. tremellosus delignification of wood
ultrastructural aspects, 239
Fusarium acuminatum
isolation from oats and barley
T-2 toxin production, 594
Fusarium graminearum
deepoxy-diacetoxyscirpenol production, 311
Fusarium spp.
isolation from Korean cereals, 1258
mycotoxin production, 1258
Fusobacterium varium
dehydrodivanillin-degrading strain
protoplast formation and regeneration, 612

Gaeumannomyces graminis
linear mitochondrial DNA elements
isolation and characterization, 924
α-Galactosidase
M. pilosus
production, purification, and characterization, 1147
β-D-Galactosidase
S. lactis gene
cloning and expression in *E. coli*, 45
Gammarus lacustris
ingestion and adsorption of *B. thuringiensis* subsp. *israelensis*
transportation within ecosystem, 1386
Ganoderma applanatum
delignification of wood
palo podrido as model, 1305
Gas chromatography
fatty acid determination, 905
Gas-lift reactor
anaerobic bacterial aggregates
structure and dynamics, 1139
Geostatistics
prediction of virus decay rates
determination of septic tank setback distances, 479
Giardia lamblia
detection in water
tangential-flow multiple-filter technique, 400
Glucose
phosphorylation by ruminal bacteria
phosphotransferase transport system, 1348
regulation of *P. fluorescens* antibiotics, 1183
utilization by *P. fluorescens*
free-living and attached strains, 672
Glutamine synthetase
regulation in *C. acetobutylicum*
cloning, expression, and purification, 413
Granular activated carbon
drinking water treatment
attachment of bacteria, 434
Granulose
characterization, biosynthesis, and regulation in *C. acetobutylicum*, 185
Grasses
adhesion sites on roots
Klebsiella nitrogen fixation, 1074
toxic tall fescue grass endophyte
A. coenophialum in vitro growth, 888
Groundwater
biodegradation in aquifers
dehalogenation of aromatic compounds, 681
viral contamination
determination of septic tank setback distances, 479
geostatistical prediction of virus decay rates, 479
Growth rates
turnover rate of adenine nucleotides
measurement method, 866

Halophilic bacteria
magnesium and manganese content, 567
Halophilic vibrios
occurrence and distribution in subtropical coastal waters, 1407
Halotolerant bacteria
Planococcus phospholipids and fatty acids
effect of salt concentrations, 580
Thermus spp.
isolation from submarine hot springs, 1313
Heavy metals
cadmium- and mercury-resistant *Bacillus* strains
isolation from a salt marsh and a harbor, 1293
magnesium and manganese
concentration in halophilic bacteria, 567
Hemolysin
V. cholerae non-O1
plasmid-borne gene, 1218
Hepatitis A virus

detection in seeded estuarine samples
cDNA hybridization method, 711
Herbicides
bromoxynil
metabolism by *K. pneumoniae* subsp. *ozaenae*, 325
Heterotrophic microorganisms
Antarctic lake
factors affecting high-oxygen survival, 1236
Heterotrophic nanoflagellates
fixation, counting, and manipulation, 1266
Hexoses
phosphorylation by ruminal bacteria
phosphotransferase transport system, 1348
Hot springs
isolation of halotolerant *Thermus* spp., 1313
Humic acid
effect on virus recovery from water, 556
Hybridization
P. fluorescens group
pHF360 as hybridization probe, 1190
Hydrocarbons
oxidation by bacterial whole-cell suspensions, 1403
Hydrogen
evolution by soybean root nodules
enrichment for *Acinetobacter* spp., 1008
localized source in soil
effect on bacterial distribution, 1091
utilization by *M. barkeri*, 269
Hydrogenation
unsaturated hydrocarbons during cellulose degradation
catalysis by palladium, 744
Hydrophobic interactions
T. ni nuclear polyhedrosis virus attachment to leaves, 220
Hydroxynaphthalene sulfonates
degradation by mixed cultures, 1195

Ice-nucleating bacteria
fields in central Alberta
characterization, 173
seasonal population changes, 173
Inclusion bodies
formation in *E. coli* β-lactamase overproducers, 1157
Indicator organisms
fecal pollution in water
effect of organotins, 562
Infectious hematopoietic necrosis virus
occurrence of different types in fish, 1353
Inhibitors
effect on bacterial survival in lakes, 114
Inulinase
activity in soil bacteria, 1086
Iron
Fe(III)-chelating fluorescent pigment
isolation and characterization, 157
production by *P. syringae*, 157
reduction by *Pseudomonas* strain 200
effect of oxygen concentration, 281
inhibitor studies, 281
reduction in estuarine sediment, 1167
Isotope dilution
estimation of [^{3}H]thymidine participation in DNA synthesis in aquatic environments, 1212

Kallar grass
association of root zones with *Azospirillum* spp., 520
Kinetics
phenol biodegradation by methanogens, 345
Klebsiella pneumoniae subsp. *ozaenae*
bromoxynil metabolism, 325
Klebsiella spp.
associative nitrogen fixation
adhesion sites on grass roots, 1074

β-Lactamase
overproduction in *E. coli*
localization of inclusion bodies, 1157
Lactate
fermentation
effect of aspartate metabolism by *P. freudenreichii* subsp. *shermanii*, 359
regulation of *P. freudenreichii* subsp. *shermanii* fermentation by intracellular pyruvate, 352
Lactic acid
production by electrodialysis fermentation, 314
Lactic acid bacteria
antagonism against phytopathogenic bacteria, 552
Lactic streptococci
dairy fermentation
construction of phage-resistant strains by conjugation, 1001
high-level streptomycin resistance, 255
Lactobacilli
isolation from radurized meat
radiation resistance, 898
Lactobacillus bulgaricus
bacteriophage homology group, 812
Lactobacillus fermentum
protoplast fusion, 392
Lactobacillus lactis
bacteriophage homology group, 812
Lactobacillus plantarum
conjugal plasmid transfer, 574
Lactobacillus spp.
colonization of mouse gastric epithelium
lipoteichoic acid production, 302
Lakes
bacterial survival
effect of inhibitors, 114
effect of pH on decomposition rates, 489
high-oxygen Antarctic lake
survival of heterotrophic microorganisms, 1236
protozooplankton grazing and bacterial production
estimation with metabolic inhibitors, 101
sediment bacteria
adaptation to mercury stress, 403
stratified lake with anoxic hypolimnion
depth distribution of bacterial biomass and production, 992
thymidine labeling of bacterial macromolecules
spatial and temporal variations, 1368
Larvicides
B. sphaericus crystal proteins
sporulation-associated activation, 758
B. thuringiensis subsp. *israelensis*
vegetative cell larvicidal potential, 650
Legionellaceae
susceptibility to thermal stress
application to water distribution systems, 396
Legumes
adsorption of rhizobia to roots
enumeration of rhizobia, 371
host-symbiont specificity, 377
Lemon grass
biodelignification by white-rot fungi, 607
Lentinula edodes (shiitake)
biological efficiency and size
effect of genotype, spawn run time, and substrate formulation, 1425
Leucaena diversifolia
hybrid with *L. leucocephala*
symbiotic characteristics and *Rhizobium* requirements, 1422
Leucaena leucocephala
hybrid with *L. diversifolia*
symbiotic characteristics and *Rhizobium* requirements, 1422
Lignin
degradation by *P. chrysosporium*
regulation by veratryl alcohol, 251
degradation by *S. viridosporus*
effects of pH, 246
lignin-related compounds as carbon source
growth of natural bacterial isolates, 1428
phenolic monomers
effect on ruminal bacteria, 1331
Ligninase activity
P. chrysosporium
regulation by veratryl alcohol, 251
Linalool
metabolism by *P. fluorescens*
plasmid involvement, 939
Lipopolysaccharides
comparison by high-pressure liquid chromatography
sugar composition, 948
Lipoteichoic acids
adherence of lactobacilli to mouse epithelium, 302
Listeria monocytogenes
flow cytometric detection in milk
immunofluorescence method, 689
growth in cabbage juice
effect of temperature, salt, and pH, 59
improved growth medium, 1215
thermal resistance of strains in raw milk, 1398
Listeriosis
L. monocytogenes growth in cabbage juice
effect of temperature, salt, and pH, 59
L. monocytogenes in milk
thermal resistance, 1398
Lithium chloride
effect on *C. michiganense* subsp. *nebraskense* growth
dependence on inoculum source, 591

Lugol iodine
preservative for marine bacteria
direct acridine orange counting, 602

Macromolecules
thymidine labeling in lakes
spatial and temporal variations, 1368
V. cholerae
effect of nutrient deprivation, 788
Magnesium
concentration in halophilic bacteria, 567
toxicity of ethanol during yeast fermentation
effect of Mg limitation, 975
Manganese
concentration in halophilic bacteria, 567
oxidation by marine *Bacillus* spores, 1096
Mannitol
utilization by *B. japonicum* derivatives, 75, 81
Marine bacteria
degradation of dead biomass in sediment, 504
energy and nutrient deprivation
changes in protein composition, 1419
fatty acid determination by gas chromatography, 905
halophilic vibrios
occurrence in subtropical coastal waters, 1407
preservation with acidified Lugol iodine
direct acridine orange counting, 602
Marl
Florida Everglades sediments
denitrification, 987
Meat
isolation of lactobacilli
radiation resistance, 898
Media
amylase production by *B. stearothermophilus*
culture conditions, 179
defined medium for *M. catarrhalis*
growth, 546
effect on coliform recovery
delayed-incubation membrane filter test, 778
improved *L. monocytogenes* selective agar, 1215
M. bovis defined medium, 966
NBG agar medium for *Salmonella* isolation
evaluation against conventional media, 539
whey
R. meliloti production, 838
Membranes
N. commune UTEX 584 cytoplasmic membrane
purification and biochemical analysis, 706
Mercury
effect on bacteria in lake sediments
phenotypic and genotypic adaptation, 403
resistant *Bacillus* strains
isolation from a salt marsh and a harbor, 1293
Mesquite wood
hydrolysates
carbohydrate and sugar content, 385
yeast growth, 385
Methane
production from formate
M. bryantii-D. vulgaris syntrophy, 1436
Methane-oxidizing bacteria
microbial oxidation of hydrocarbons, 1403
Methanobacterium bryantii
syntrophy with *D. vulgaris* JJ
methane production from formate, 1436
Methanobacterium spp.
thermophilic, autotrophic strain
characterization, 1227
isolation from biogas digestor, 1227
Methanococcus thermolithotrophicus
growth and methanogenesis
effect of formate, 1080
Methanogenesis
end products of anaerobic chitin degradation, 1415
M. barkeri
utilization of methanol plus hydrogen, 269
M. thermolithotrophicus
effect of formate, 1080
Methanogens
anoxic sediments
methane and carbon dioxide production from dimethylselenide, 1031
Methanobacterium sp.
characterization, 1227
isolation from biogas digestor, 1227
methylated sulfur compound metabolism
anoxic sediments, 1037
M. mazei
life cycles, 17
phenol biodegradation
kinetic study, 345
Methanol
utilization by *M. barkeri*, 269
Methanosarcina barkeri
growth in defined medium
effect of sulfur-containing compounds, 617
methanogenesis and growth
utilization of methanol plus hydrogen, 269
Methanosarcina mazei
life cycles
ultrastructure and development, 17
Methylated sulfur compounds
metabolism by methanogens in sediments, 1037
Methylotrophic bacteria
lipopolysaccharide composition, 948
Mice
colonization of gastric epithelium
Lactobacillus strains, 302
Microbial dynamics
exuding surfaces
model system for study, 191
Microbial enumeration
disposable hydrophobic grid-membrane filter unit, 857
Microcetus lappus gen. nov., sp. nov.
ciliated protozoon from bovine rumens
characterization, 527
Microelectrodes
survey of marine and freshwater *Beggiatoa* strains
H_2S and O_2 gradient development, 161
microoxic-anoxic niche, 161
Microflagellates
carbon and nitrogen cycling
effect of temperature, 1340
Milk
bacteriophage isolation from viili
ultrastructure and host specificity, 771
L. monocytogenes
thermal resistance, 1398
L. monocytogenes detection
flow cytometric method, 689
Mineralization
anaerobic transformation of aromatics
incorporation of oxygen from water, 200
bacterial spores
correlation with heat resistance, 1242
enterotoxin production
effect of microcosm salinity, 297
effect of organic substrate concentration, 297
lignin-related compounds
growth of natural bacterial isolates, 1428
pentachlorophenol degradation
anaerobic microorganisms, 861
sparingly soluble organic compounds
effect of dissolution rate, 290
toluene and 1,3-dimethylbenzene in absence of oxygen, 944
Mines
uranium mine effluent
microbial release of radium from sludge, 262
Minicells
aquatic environments
measurement of predation on bacteria, 4
Mitochondria
G. graminis var. *tritici*
linear DNA isolation and characterization, 924
Monascus pilosus
α-galactosidase
production, purification, and characterization, 1147
Monoclonal antibodies
R. trifolii strain identification
production and use, 119
staphylococcal enterotoxin A
nature and reactivity, 1247
specificity and cross-reactivity, 1253
Moraxella bovis
defined medium, 966
Moraxella (Branhamella) catarrhalis
defined medium for growth, 546
Mushrooms
L. edodes (shiitake)
effect of genotype on biological efficiency and size, 1425
V. volvacea
protoplast mutagenesis and regeneration, 1412
Mutagenicity
Alternaria altertoxins, 718
Mycelia
V. volvacea
protoplast mutagenesis and regeneration, 1412
Mycotoxins

citrinin
action on *E. coli* DNA, 1273
F. acuminatum isolated from oats and barley
T-2 toxin production, 594
patulin
DNA breaks in *E. coli*, 1046
production by *Fusarium* isolates from cereals, 1258

Natural gas
effect on chloroform oxidation in soil, 203
Nitrapyrin
ammonia oxidation by *N. europaea*
inhibition in soil and liquid culture, 782
Nitrification
acid forest soil, 1107
acid-tolerant fungus, 1107
immobilized *N. agilis* cells
nitrite oxidation inhibition, 1231
nitrogen losses from forested ecosystems
environmental parameters, 1287
source of nitrogen production in soil
distinction from denitrification, 1280
Nitrite
nitrogen production by *Nitrosomonas* isolate, 957
oxidation by *N. agilis*
inhibitor evaluation, 1231
Nitrobacter agilis
immobilized cells
nitrite oxidation inhibition, 1231
Nitrogen
growth limitation of cyanobacteria
effect on macromolecular synthesis, 340
losses from forested ecosystems by nitrification and denitrification
effect of environmental parameters, 1287
planktonic bacteria, 28
production from nitrite by *Nitrosomonas* isolate, 957
production in soil by nitrification and denitrification
use of acetylene to determine source, 1280
Nitrogenase
activity in *S. alterniflora*
carbon dioxide enhancement, 108
Nitrogen fixation
A. filiculoides
effect of *Chlamydomonas* inoculation, 1123
Arthrobacter Conn and Dimmick
isolation from *Azolla* fern, 425
B. japonicum USDA 110 and derivatives
mannitol utilization, 75, 81
symbiotic performance, 75, 81
C. violaceum, 696
effect of root exudate on *B. japonicum*
competitiveness
rapid colored-nodule assay, 847
Kallar grass root zones
association with *Azospirillum* spp., 520
Klebsiella spp.
adhesion sites on grass roots, 1074
L. leucocephala × *L. diversifolia*, 1422
nitrogen-fixing cellulolytic bacterium
growth characteristics, 982
R. trifolii
growth in absence of combined nitrogen, 1060
S. alterniflora
coupling with plant photosynthesis, 108
Nitrogen isotopic ratio determination
ammonium extraction from water
new concentration procedure, 577
o-Nitrophenols
oxidative metabolism by *P. putida* B2
influence of *para*-substituents, 334
Nitrosomonas europaea
ammonium oxidation
inhibition by nitrapyrin in soil and liquids, 782
Nitrosomonas spp.
nitrite reduction to nitrogen, 957
Nitrous oxide
production in soil
effects of acetylene reduction, 802
Nodulating behavior
R. trifolii indigenous serotypes, 1014
Nodulation
R. meliloti on alfalfa roots
growth rate and competition, 807
Nonvolatile residue
nylon manufacturing waste
use as fermentation substrate, 152
Nostoc commune
cytoplasmic membrane
purification and biochemical analysis, 706
Novobiocin-brilliant green-glucose agar
medium for *Salmonella* isolation
evaluation against conventional media, 539
Nutrients
deprivation in *V. cholerae*
effect on bacterial macromolecules, 788
effect on fatty acid composition, 794
Nylon
nonvolatile manufacturing residue
use as fermentation substrate, 152

Oats
F. acuminatum isolation
T-2 toxin production, 594
Oral microorganisms
application of aerotolerance measurement method, 971
Organophosphorus pesticides
emulsification by *Bacillus* strains, 1224
Organotins
effect on fecal pollution indicator organisms, 562
Ornithine
S. clavuligerus fermentations
clavulanic acid precursor, 892
Orthophosphates
effect on *S. aureus* growth
factors affecting inhibition, 842
Oscillatoria spp.
nitrogen limitation in natural populations
effect on macromolecular synthesis, 340
Overproduction
high-specific-activity xylanase
A. pullulans color variants, 1026
Oxidation
anaerobic transformation of aromatics
incorporation of oxygen from water, 200
chloroform
natural gas-amended aerobic soil, 203
hydrocarbons, 1403
manganese oxidation by marine *Bacillus* spores, 1096
nitrite oxidation by *N. agilis*
inhibitor evaluation, 1231
Oxygen
absence during toluene and *m*-xylene mineralization, 944
bacterial tolerance measurement method
application to oral indigenous anaerobes, 971
gradient for *Beggiatoa* growth
microelectrode survey, 161, 225
survival of heterotrophic microorganisms, 1236
toluene and benzene mineralization
incorporation from water, 200

Pachysolen tannophilus
aldose reductase and xylitol dehydrogenase
affinity purification, 660
Palladium
unsaturated hydrocarbon hydrogenation
catalysis during cellulose degradation, 744
Palo podrido
model for wood delignification by *G. applanatum*, 1305
Paraphysomonas imperforata
carbon and nitrogen cycling
effect of temperature, 1340
Paraquat
toxicity to microorganisms
enzyme response, 1112
Patulin
DNA breaks in *E. coli*, 1046
Peanuts
preharvest invasion by *Aspergillus* spp.
color mutant and wild-type strains, 1128
Peat
Florida Everglades sediments
denitrification, 987
Pectic enzymes
production by *Erwinia* spp.
correlation with taxonomic classification, 305
Pelagic bacteria
predation in situ
minicells as probes, 4
Penicillium spp.
conidia
partitioning in two-phase systems, 723
Pentachlorophenol
degradation by anaerobic microorganisms
reductive dechlorination and mineralization, 861
degradation by *Flavobacterium* strain
comparison with epilithic microbial consortium, 92
Peroxidase
microbial peroxidase activity
detection by chlorpromazine, 1433

Pesticides
organophosphorus
emulsification by *Bacillus* strains, 1224
pH
effect on decomposition in lakes, 489
ruminal microorganisms
efficiency of fiber digestion, 390
Phanerochaete chrysosporium
ligninase activity regulation
role of veratryl alcohol, 251
Phaseolus vulgaris
semienclosed tube cultures
R. phaseoli enumeration, 954
Phenol
biodegradation by methanogens
kinetic study, 345
Phenolic compounds
effect of phenolic monomers on ruminal bacteria, 1331
effect on forage digestibility, 275
toxicity for ruminal microorganisms, 275
Phenothiazines
chlorpromazine
detection of microbial peroxidase activities, 1433
L-Phenylalanine
production from starch by *B. polymyxa*
analog-resistant mutants, 637
3-Phenylpropanoic acid
ruminal bacteria
effect on growth and cellulose utilization, 209
Phlebia tremellosus
delignification of aspen and birch
ultrastructural aspects, 239
Phoenix dactylifera L. (date palm)
callus and healthy offshoot cultures
pathogenic *B. circulans* isolation, 1173
Phospholipid ester-linked fatty acids
V. cholerae
effect of nutrient deprivation, 794
Phospholipids
composition in *Planococcus* spp.
effect of salt concentrations, 580
Phosphorylation
hexose phosphorylation by ruminal bacteria
phosphotransferase transport system, 1348
Photosynthesis
phytoplankton carbon uptake
effects of flow cytometric analysis and cell sorting, 935
S. alterniflora
coupling with nitrogen fixation, 108
Phototrophic nanoflagellates
fixation, counting, and manipulation, 1266
Phytopathogenic bacteria
antagonism of lactic acid bacteria, 552
Phytoplankton
photosynthetic carbon uptake
effects of flow cytometric analysis and cell sorting, 935
production in hypertrophic lakes
correlation with bacterial activity, 1368
Pichia stipitis
xylan utilization
conversion to ethanol, 320
Pigments
B. megaterium spores, 64
Fe(III)-chelating fluorescent compound
isolation and characterization, 157
production by *P. syringae*, 157
Pili
role in *B. japonicum* attachment to soybean roots, 134
Plankton
bacterial production and turnover in rivers
effect of season and location, 1317
Planktonic bacteria
carbon and nitrogen content, 28
Planococcus sp. strain A4a
phospholipid and fatty acid composition
effect of salt concentrations, 580
Plant growth regulators
B. bassiana sensitivity, 1
Plant pathogens
long-term storage in sterile distilled water
maintenance and preservation, 388
Plasmid isolation method
C. perfringens and *C. absonum*, 197
Plasmids
effect on UV inactivation of *B. anthracis*, 444
frequency in *V. vulnificus*, 211
incompatibility plasmid R27
location of plasmid-mediated citrate utilization, 1394
pHF360
P. fluorescens DNA hybridization probe, 1190
pIJ702
vector for *Streptomyces cho* gene cloning, 1382
pJB3J1
gene mobilization in *R. fredii*, 206
pSRQ60
P. fluorescens metabolism of linalool, 939
S. lactis protoplast transformation, 394
streptococcal plasmid pAMβ1
conjugal transfer in *L. plantarum*, 574
streptomycin resistance
development in lactic streptococci, 255
transfer to *Z. mobilis*
antibiotic resistance, 366
V. cholerae non-O1
thermostable direct hemolysin gene, 1218
Poliovirus type 1
recovery from water by electropositive filters
effect of humic acid, 556
Polyethylene glycol
metabolism by anaerobic bacteria, 852
Polygalacturonic acid
Bacteroides spp.
carbon and energy source, 9
Polyphosphates
effect on *S. aureus* growth
factors affecting inhibition, 842
Polystyrene
bacterial adhesion
electrostatic interactions, 460
hydrophobic interactions, 460
surface tension, 460
Populations
ice-nucleating bacteria in Alberta fields
seasonal changes, 173
Potato starch
ethanol production
A. niger and *S. cerevisiae* cocultures, 1055
Predators
gram-negative and gram-positive bacterial predators of bacteria in soil
effect of nutrient level in soil, 819
Preservatives
seawater samples preserved with Lugol iodine
direct acridine orange counting, 602
Proline
utilization by avirulent *C. fascians* strains, 33
Propionibacterium freudenreichii subsp. *shermanii*
aspartate metabolism
effect on lactate fermentation, 359
lactate isomer utilization
regulation by intracellular pyruvate, 352
Protease
protease-negative *A. ficum* mutant
α-amylase production and characteristics, 1068
Proteinases
S. cremoris cell wall proteolytic system
action on bovine casein, 1162
Proteins
B. sphaericus larvicidal crystal
sporulation-associated activation, 758
B. thuringiensis subsp. *israelensis* crystalline toxin
immunological relationships, 644
marine bacteria
changes during energy and nutrient deprivation, 1419
Proteolytic activity
B. fibrisolvens
characterization, 51
Protoplast fusion
L. fermentum, 392
Protoplasts
formation and regeneration in ruminal bacteria, 612
V. volvacea
mutagenesis and regeneration, 1412
Protoplast transformation
S. lactis, 394
Protozoa
M. lappus gen. nov., sp. nov.
bovine rumens, 527
rates of physiological processes
effect of temperature, 1340
Protozooplankton
grazing in eutrophic lake
estimation with metabolic inhibitors, 101
Pseudomonads
alginate production by plant-pathogenic strains, 466
Pseudomonas fluorescens
DNA hybridization probe
plasmid pHF360, 1190
free-living and attached strains
glucose utilization measurement, 672
linalool metabolism
plasmid involvement, 939
multiple antibiotic production
glucose regulation, 1183

Pseudomonas putida
cinnamic acid degradation
comparative analysis with *P. stutzeri*, 930
oxidative metabolism of *o*-nitrophenols
influence of *para*-substituents, 334
Pseudomonas spp.
extracellular polysaccharide
production and rheological properties, 1221
Pseudomonas sp. strain 200
ferric iron reduction
effect of oxygen concentration, 281
inhibitor studies, 281
Pseudomonas stutzeri
cinnamic acid degradation
comparative analysis with *P. putida*, 930
Pseudomonas syringae
Fe(III)-chelating fluorescent pigment
isolation and characterization, 157
Pyruvate
regulation of lactate utilization by *P. freudenreichii* subsp. *shermanii*, 352

Radiation
resistance of lactobacilli from radurized meat, 898
Radium
uranium mine effluent
microbial release from sludge, 262
Reduction
ferric iron by *Pseudomonas* strain 200
effect of oxygen concentration, 281
inhibitor studies, 281
ferric iron in river sediments
distribution and availability, 751
Retorted shale
range plant exposure
bacterial physiological diversity in rhizosphere, 765
Rhabdoviruses
infectious hematopoietic necrosis virus
occurrence of different types in fish, 1353
Rhizobia
adsorption to small legume roots
host-symbiont specificity, 377
quantitation, 371
attached and unattached strains in soil
fractionation and estimation, 911
fast- and slow-growing strains
growth on ethanol, 951
R. trifolii indigenous serotypes
autecology and nodulating behavior, 1014
interstrain competition, 1020
Rhizobium fredii
genetic analysis
R-plasmid-promoted gene mobilization, 206
transposon labeling, 206
Rhizobium meliloti
adsorption to alfalfa roots
host-symbiont specificity, 377
selective binding sites, 377
large-scale production on whey, 838
nodulation and root colonization
growth rate and competition, 807
Rhizobium phaseoli
most-probable-number enumeration technique
P. vulgaris tube culture, 954
Rhizobium spp.
fast- and slow-growing soybean rhizobia
growth on ethanol, 951
requirement of *L. leucocephala* × *L. diversifolia*, 1422
Rhizobium trifolii
growth in absence of combined nitrogen, 1060
indigenous serotypes
autecology and nodulating behavior, 1014
interstrain competition, 1020
monoclonal antibodies for strain identification
production and use, 119
Rhizopus arrhizus
fumaric acid accumulation
biochemical mechanism, 128
Rhizopus spp.
zearalenone conversion to zearalenone glycoside, 515
Rhizosphere
range plant exposure to retorted shale
bacterial physiological diversity, 765
Rivers
production and turnover of planktonic bacteria
effect of season and location, 1317
reduction by ferric iron in sediments, 751
Rock cod
storage in carbon dioxide atmosphere
residual effect on microbial flora, 727
Roots
adsorption of rhizobia to legumes
enumeration of rhizobia, 371
host-symbiont specificity, 377
alfalfa
nodulation and colonization by *R. meliloti*, 807
effect of exudate on *B. japonicum* competitiveness
rapid colored-nodule assay, 847
hydrogen-evolving soybean root nodules
enrichment for *Acinetobacter* spp., 1008
Rotaviruses
concentration method, 484
recovery from estuarine waters, 484
Ruminal microorganisms
B. fibrisolvens
proteolytic activity characterization, 51
dehydrodivanillin-degrading strains
protoplast formation and regeneration, 612
effect of phenolic compounds in forage, 275
effect of phenolic monomers, 1331
fiber digestion
effect of pH selection, 390
growth and cellulose utilization
effect of 3-phenylpropanoic acid, 209
hexose phosphorylation
phosphotransferase transport system, 1348
M. lappus gen. nov., sp. nov.
ciliated protozoon, 527

Saccharomyces cerevisiae
coculture with *A. niger*
potato starch fermentation to ethanol, 1055
fodder beet fermentation in ethanol production
effect of inoculum size, 960
selection for frozen-dough breadmaking, 941
Saccharomyces spp.
ethanol production during fermentation
effect of magnesium limitation, 975
Salmonella spp.
detection in foods
immunological membrane filter method, 124
NBG agar medium for isolation
evaluation against conventional media, 539
Salt marsh
fertilization with sewage sludge
effect on bacterial community, 915
isolation of metal-resistant *Bacillus* strains, 1293
Salts
effect on fatty acids and phospholipids in *Planococcus* spp., 580
Seafood
V. parahaemolyticus enumeration
evaluation of methods, 583
Seawater
enterotoxin production by *V. cholerae*
effect of microcosm salinity, 297
effect of organic substrate concentration, 297
preservation with acidified Lugol iodine
direct acridine orange counting of bacteria, 602
Sebastes spp. (rock cod)
storage in carbon dioxide atmosphere
residual effect on microbial flora, 727
Sediments
aerobic heterotrophic bacteria
adaptation to mercury stress, 403
dimethylselenide metabolism
methane and carbon dioxide production, 1031
effect of pH on decomposition in lakes, 489
enrichment cultures
microbial iron reduction, 1167
Florida Everglades marl and peat
denitrification, 987
marine beach sand
degradation of dead microbial biomass, 504
methylated sulfur compound metabolism
methanogens, 1037
microbial reduction by ferric iron, 751
Septic tanks
determination of setback distances
geostatistical prediction of virus decay rates, 479
Serotypes
R. trifolii
autecology and nodulating behavior, 1014
interstrain competition, 1020
Sewage sludge
anaerobic pentachlorophenol degradation
reductive dechlorination and mineralization, 861
fatty acid determination by gas chromatography, 905
fertilization of salt marsh

effect on bacterial community, 915
virus inactivation during treatment
method of determination, 498
Shale, retorted
range plant exposure
bacterial physiological diversity in rhizosphere, 765
Shiitake
biological efficiency and size
effect of genotype, spawn run time, and substrate formulation, 1425
Shipworm bacterium
nitrogen fixation and cellulose digestion
growth characteristics, 982
Siderophores
Fe(III)-chelating fluorescent pigment
isolation and characterization, 157
production by *P. syringae*, 157
Soil
acid forest
nitrification, 1107
aerobic metabolism of trichloroethylene
characterization of isolate, 383
ammonia oxidation by *N. europaea*
inhibition by nitrapyrin, 782
attached and unattached *B. japonicum*
fractionation and estimation, 911
chloroform oxidation, 203
distribution of hydrogen-metabolizing bacteria
effect of localized hydrogen source, 1091
gram-negative and gram-positive bacterial predators of bacteria
effect of nutrient level in soil, 819
nitrogen losses from forests by nitrification and denitrification
effect of environmental parameters, 1287
source of gaseous nitrogen production
distinction between nitrification and denitrification, 1280
Solubility
sparingly soluble organic compounds
effect on biodegradation, 290
Solvents
C. acetobutylicum whey fermentation
effect of nutrients on production, 169
production by *C. acetobutylicum*
intracellular conditions, 86
Soybeans
B. japonicum attachment to roots
role of pili, 134
B. japonicum nodule formation
effect of root exudate treatment, 847
contamination by aflatoxins
role of seed coat integrity, 68
hydrogen-evolving root nodules
enrichment for *Acinetobacter* spp., 1008
Spartina alterniflora
microbial community on standing dead leaves
thymidine incorporation, 1206
nitrogenase activity
carbon dioxide enhancement, 108
root-associated nitrogen fixation and plant photosynthesis, 108
Spirulina spp.
nitrogen limitation in natural populations
effect on macromolecular synthesis, 340
Spores
B. megaterium
red pigment, 64
heat resistance
effect of dehydration, mineralization, and thermal adaptation, 1242
marine *Bacillus* isolate
manganese oxidation, 1096
Sporulation
effect on *C. perfringens* enterotoxin synthesis, 407
Staphylococcal enterotoxin A
monoclonal antibodies
nature and reactivity, 1247
specificity and cross-reactivity, 1253
Staphylococci
isolation from swimming pool water by membrane filtration
assay for in situ identification, 589
Staphylococcus aureus
anti-H antibody
V. vulnificus detection, 1299
sensitivity to polyphosphates
factors affecting inhibition, 842
Starch
L-phenylalanine production by *B. polymyxa* analog-resistant mutants, 637
Starvation
marine bacteria
changes in protein composition, 1419
V. cholerae
effect on bacterial macromolecules, 788
effect on fatty acid composition, 794
Steroid desmolase
synthesis in *E. desmolans* and *C. cadavaris*, 1153
Storage
preservation of plant pathogens in water, 388
rock cod in carbon dioxide
residual effect on microbial flora, 727
Streptococcus cremoris
action of cell wall proteinases on bovine casein, 1162
Streptococcus lactis
protoplast transformation by plasmid DNA, 394
Streptococcus thermophilus
β-D-galactosidase gene
cloning and expression in *E. coli*, 45
protein characterization, 45
Streptomyces clavuligerus
clavulanic acid production
ornithine and arginine precursors, 892
Streptomyces lividans
cloning and expression of *Streptomyces cho* gene, 1382
Streptomyces setonii
veratrole demethylation by cytochrome P-450, 98
Streptomyces sp.
cloning and expression of *cho* gene in *S. lividans*, 1382
Streptomyces viridosporus
lignin and cellulose degradation
effects of pH, 246
Streptomycin resistance
development in lactic streptococci, 255
Sugars
methylotrophic bacteria
lipopolysaccharide composition, 948
Sulfate reduction
end products of anaerobic chitin degradation, 1415
Sulfide
gradient for *Beggiatoa* growth
microelectrode survey, 161, 225
Sulfur
effect on *M. barkeri* growth, 617
Surfaces
permeable
model system for microbial dynamics, 191
Swimming pools
recovery of staphylococci by membrane filtration
assay for in situ identification, 589
vinyl fouling by algae
enhancement by bacteria, 1391
Symbiosis
B. japonicum USDA 110 and I-110, 75
L. leucocephala × *L. diversifolia*, 1422
Syntrophy
M. bryantii-D. vulgaris
methane production from formate, 1436

Termites
gut microbiota
acetate synthesis from H_2 plus CO_2, 623
Thermal adaptation
bacterial spores
correlation with heat resistance, 1242
Thermal inactivation
eradication of *Legionellaceae*
application to water distribution systems, 396
Thermal resistance
L. monocytogenes in milk, 1398
Thermomonospora spp.
bacteriophage characterization, 631
Thermophiles
halotolerant *Thermus* spp.
isolation from submarine hot springs, 1313
Methanobacterium sp.
characterization, 1227
isolation from biogas digestor, 1227
microbial oxidation of hydrocarbons, 1403
Thermomonospora spp.
bacteriophage characterization, 631
Thermus spp.
bacteriocinlike activity
plasmid analysis, 1203
testing by deferred antagonism technique, 1203
thermophilic, halotolerant bacteria
isolation from submarine hot springs, 1313
Thiosulfate
effect on *M. barkeri* growth, 617
Thymidine
standing dead *S. alterniflora* leaves
incorporation by microbial community, 1206
Thymidine, tritium labeled
participation in DNA synthesis
verification of isotope dilution approach, 1212
Toluene
mineralization in absence of oxygen, 944

Toxicity
effect of paraquat on microorganisms
enzyme response, 1112
Toxins
B. thuringiensis subsp. *israelensis* crystalline toxin proteins
immunological relationships, 644
effect on bacterial survival in lakes, 114
Transposons
Tn*5* insertions in *R. fredii*, 206
Trichloroethylene
aerobic metabolism
characterization of isolate, 383
Trichoplusia ni nuclear polyhedrosis virus
hydrophobic interactions with leaves, 220
Trichothecenes
deepoxy-diacetoxyscirpenol
production in *F. graminearum* culture, 311
Trichothecin
occurrence in wheat, 331
Trichothecium roseum
trichothecin
occurrence in wheat, 331
T-2 toxin
production from *F. acuminatum* isolated from oats and barley, 594
Tumors
induction in dicotyledenous plants by *A. tumefaciens*
minimum time required, 597

Ultraviolet irradiation
photoreactivation of *B. anthracis* strains, 444
Uranium mines
microbial release of radium from wastes, 262

Vegetative cells
B. thuringiensis subsp. *israelensis*
mosquito larvicidal potential, 650
Veratrole
demethylation by cyctochrome P-450 in *S. setonii*, 98
Veratryl alcohol
regulation of ligninase activity by *P. chrysosporium*, 251
Vibrio cholerae
clinical and environmental isolates
comparatve study of enteropathogenicity, 875
colonization of gut wall of the blue crab
chitin requirement, 586
nutrient deprivation
effect on bacterial macromolecules, 788
effect on fatty acid composition, 794
survival in hot foods, 824
Vibrio cholerae non-O1
plasmid-borne gene
thermostable direct hemolysin, 1218
Vibrio parahaemolyticus
enumeration from seafood
evaluation of methods, 583
Vibrio proteolyticus
consortia with *A. coffeaeformis*
stimulation of bacterial DNA synthesis, 1177
Vibrios, halophilic
occurrence in subtropical coastal waters, 1407
Vibrio vulnificus
chitinase determinants
applications of chitinase probe, 142
chitobiase gene cloning, 142
isolation from wound infection
bioluminescence, 1209
plasmid carriage, 211
rapid serological identification
anti-H coagglutination, 1299
Viili
bacteriophage isolation
ultrastructure and host specificity, 771
Vinyl
fouling by algae
enhancement by bacteria, 1391
Virulence
C. fascians
agmatine and proline utilization, 33
Viruses
concentration of rotaviruses, 484
enteric virus inactivation in fresh water
measurement of inactivation rates, 450
hepatitis A virus
detection in seeded estuarine samples, 711
inactivation during sludge treatment
method of determination, 498
prediction of decay rates
geostatistical methods, 479
recovery from water by electropositive filters
effect of humic acid, 556
rotavirus recovery from estuarine waters, 484
T. ni nuclear polyhedrosis virus
hydrophobic interactions with leaves, 220
Volvariella volvacea
protoplast mutagenesis and regeneration, 1412

Water
aerobic metabolism of trichloroethylene
characterization of isolate, 383
bacterial survival in lakes
effect of inhibitors, 114
C. jejuni survival
role of viable but nonculturable stage, 531
coliform detection in drinking water
Clark's presence-absence test, 439
membrane filter method, 439
coliphage detection in drinking water
direct plaque assay, 430
detection of *G. lamblia* cysts
tangential-flow multiple-filter technique, 400
effect of pH on decomposition in lakes, 489
enteric virus inactivation in fresh water
measurement of inactivation rates, 450
extraction of ammonium
new concentration procedure, 577
fecal pollution indicator organisms
effect of organotins, 562
granular activated carbon particles
associated bacteria, 434
long-term storage of plant pathogens, 388
phenotypic characteristics of coliforms in public water supply
comparison with regional and national clinical species, 474
recovery of staphylococci from swimming pools
assay for in situ identification, 589
rotavirus recovery from estuaries
concentration method, 484
susceptibility of *Legionellaceae* to heat
application to water distribution systems, 396
virus recovery by electropositive filters
effect of humic acid, 556
Wheat
G. graminis mitochondrial DNA
isolation and characterization, 924
trichothecin production, 331
Whey
fermentation by *C. acetobutylicum*
effect of nutrients on solvent production, 169
large-scale production of *R. meliloti*, 838
White-rot fungi
biodelignification of grasses, 607
Wildlife
isolation of *Y. enterocolitica*
serogroups and pathogens, 420
Wood
analysis of fungal degradation
differential scanning calorimetry, 1101
aspen and birch
delignification by *P. tremellosus*, 239
delignification by *G. applanatum*
palo podrido as model, 1305
fermentation by *C. thermocellum*
effect of supercritical ammonia, 733
mesquite wood hydrolysates
carbohydrate and sugar content, 385
yeast growth, 385

Xanthan depolymerase
isolation from salt-tolerant bacterium, 37
purification and properties, 37
Xanthobacter spp.
cycloalkane metabolism
comparative study, 665
Xylan
utilization by yeasts
conversion to ethanol, 320
Xylanase
high specific activity
overproduction by *A. pullulans* color variants, 1026
Xylitol dehydrogenase
affinity purification in *P. tannophilus*, 660

Yeasts
growth in mesquite wood hydrolysate, 385
P. stipitis
xylan conversion to ethanol, 320
P. tannophilus
affinity purification of enzymes in xylose pathway, 660
quantitation in beverages
fluorescence microscopy procedure, 599
S. cerevisiae
breadmaking by frozen-dough

method, 941
Yersinia enterocolitica
isolation from wildlife in New York state
serogroups and pathogens, 420
Zearalenone
conversion to zearalenone glycoside by *Rhizopus* sp., 515
Zearalenone glycoside
production from zearalenone by *Rhizopus* sp.
spectroscopic characterization, 515
Zinc
effect on aflatoxin contamination of soybeans, 68
effect on aflatoxin content of corn, 73
Zymomonas mobilis
antibiotic resistance
broad-host-range plasmid transfer, 366

U.S. Postal Service

STATEMENT OF OWNERSHIP, MANAGEMENT AND CIRCULATION

Required by 39 U.S.C. 3685)

1A. TITLE OF PUBLICATION	1B. PUBLICATION NO.	2. DATE OF FILING
Applied and Environmental Microbiology		1 October 1986
3. FREQUENCY OF ISSUE	3A. NO. OF ISSUES PUBLISHED ANNUALLY	3B. ANNUAL SUBSCRIPTION PRICE
Monthly	12	$35 member $180 non-member

4. COMPLETE MAILING ADDRESS OF KNOWN OFFICE OF PUBLICATION *(Street, City, County, State and ZIP+4 Code) (Not printer)*
American Society for Microbiology
1913 I Street, N.W., Washington, D.C. 20006

5. COMPLETE MAILING ADDRESS OF THE HEADQUARTERS OF GENERAL BUSINESS OFFICES OF THE PUBLISHER *(Not printer)*
(Same as above)

6. FULL NAMES AND COMPLETE MAILING ADDRESS OF PUBLISHER, EDITOR, AND MANAGING EDITOR *(This item MUST NOT be blank)*

PUBLISHER *(Name and Complete Mailing Address)*
(Same as 4)

EDITOR *(Name and Complete Mailing Address)*
Lars G. Ljungdahl (same as 4)

MANAGING EDITOR *(Name and Complete Mailing Address)*
Kirk Jensen (same as 4)

7. OWNER *(If owned by a corporation, its name and address must be stated and also immediately thereunder the names and addresses of stockholders owning or holding 1 percent or more of total amount of stock. If not owned by a corporation, the names and addresses of the individual owners must be given. If owned by a partnership or other unincorporated firm, its name and address, as well as that of each individual must be given. If the publication is published by a nonprofit organization, its name and address must be stated.) (Item must be completed.)*

FULL NAME	COMPLETE MAILING ADDRESS
American Society for Microbiology	1913 I Street, N.W. Washington, D.C. 20006

8. KNOWN BONDHOLDERS, MORTGAGEES, AND OTHER SECURITY HOLDERS OWNING OR HOLDING 1 PERCENT OR MORE OF TOTAL AMOUNT OF BONDS, MORTGAGES OR OTHER SECURITIES *(If there are none, so state)*

FULL NAME	COMPLETE MAILING ADDRESS
None	

9. FOR COMPLETION BY NONPROFIT ORGANIZATIONS AUTHORIZED TO MAIL AT SPECIAL RATES *(Section 423.12 DMM only)*
The purpose, function, and nonprofit status of this organization and the exempt status for Federal income tax purposes *(Check one)*

[X] (1) HAS NOT CHANGED DURING PRECEDING 12 MONTHS
[ ] (2) HAS CHANGED DURING PRECEDING 12 MONTHS *(If changed, publisher must submit explanation of change with this statement.)*

10. EXTENT AND NATURE OF CIRCULATION *(See instructions on reverse side)*	AVERAGE NO. COPIES EACH ISSUE DURING PRECEDING 12 MONTHS	ACTUAL NO. COPIES OF SINGLE ISSUE PUBLISHED NEAREST TO FILING DATE
A. TOTAL NO. COPIES *(Net Press Run)*	9,500	9,500
B. PAID AND/OR REQUESTED CIRCULATION 1. Sales through dealers and carriers, street vendors and counter sales	---	---
2. Mail Subscription *(Paid and/or requested)*	7,536	8,514
C. TOTAL PAID AND/OR REQUESTED CIRCULATION *(Sum of 10B1 and 10B2)*	7,536	8,514
D. FREE DISTRIBUTION BY MAIL, CARRIER OR OTHER MEANS SAMPLES, COMPLIMENTARY, AND OTHER FREE COPIES	83	83
E. TOTAL DISTRIBUTION *(Sum of C and D)*	7,619	8,597
F. COPIES NOT DISTRIBUTED 1. Office use, left over, unaccounted, spoiled after printing	1,881	903
2. Return from News Agents	---	---
G. TOTAL *(Sum of E, F1 and 2--should equal net press run shown in A)*	9,500	9,500
